

Hospital, our experience with the previous hospitals did not go as planned, the patient was critical and would not recognise his family or friends. His coordination with his hands and legs too was shunned, but when we came to this hospital (SANSCAR) the doctors took immediate action and responsibility to heal the patient,

The patient was critical when we brought him here, i.e. ~~11/4/2024~~ ~~11/6/2024~~ 29 September 2024, and the next moment he was admitted in the ICU, within 12 hours of the treatment he was out of danger and out of the ICU, he started recognizing everyone and has a good control over his hands and legs now, i.e. 05-10-2024

I would once again like to thank the SANSCAR Hospital for the effortless and constant attention towards healing my father,

with gratitude

(SANSCAR)

Respected sir/Ma'am,

I, Abhijit Kiran Patil would like to take this opportunity to thank the doctors, the helpers and the coworkers here at the SANSCAR Hospital and specially thank Dr. Shivashankar. B. Marajakke for his constant help and attention towards the patient.

The doctors here helped us tirelessly and with a lot of consideration towards the healing process of the patient.

We consulted 2 hospitals before we were informed about this (SANSCAR)
